

To be EDITED - FIRST DRAFT

Skill Sphere – Final Demo Script (Showcase)

Goal: Demonstrate the full learner journey + mentor workflow in ~5–7 minutes.

Demo Setup (Before presenting)

- Open two browser tabs OR two windows:
 1. Learner account
 2. Mentor account
- Ensure database contains at least 5 skills + 1 group
- Keep Firebase Console open (optional for proof)

Step-by-Step Demo

1) Landing / Home (30 seconds)

- “This is Skill Sphere, a community skill development platform...”
- Show home page with skill cards.

Show: skill browsing UI

2) Create Account / Login (45 seconds)

- Click Sign Up (or Login if you already have accounts)

- Log in as Learner account

Say: “Users create accounts to save reflections and track progress.”

3) Browse Skills (30 seconds)

- Scroll skill cards
- Click one skill (example: Public Speaking)

Show: transition from list → skill detail

4) Skill Detail + SDG Impact (45 seconds)

- Point out SDG section
- Read 1 sentence: “This skill supports SDG __ because ...”

Show: SDG link + impact explanation

5) Reflection (60 seconds)

- Type a short reflection (2–3 sentences)
- Click Save/Submit
- Confirm it saved (toast/message or visible in list)

Say: “Reflections are stored per user and tied to the skill.”

6) Profile + Progress (45 seconds)

- Go to Profile
- Show reflection appears
- Show progress indicator changed (if implemented)

7) Join a Learning Group (60 seconds)

- Go to Groups (or from skill page click Join)
- Join a group
- Show members list includes you

Say: “Community learning groups make it social and mentor-guided.”

8) Mentor View (60–90 seconds)

- Switch to mentor account window
- Show mentor dashboard
- Create a group OR show managing a group
- Show restriction: learners can’t do this

Close (20 seconds)

- Summarize:
 - accounts
 - skills + SDGs
 - reflections
 - progress tracking
 - mentor-led groups
